Only one of the prerequisites above is required

Enter into peak experience and energy from the first day. Many Monroe programs culminate in a pinnacle of energy, insight, and expanded awareness by 4th and 5th days. We have taken the crowning exercises from those days and brought them together in this unique new program.

New Insights are discovered and old truths are deepened. We begin by reconnecting with special Gateway Voyage energy with its promise of discovery and change. We then move through the peak exercises of four more programs over the next four days, each day building upon the one before, to create a crescendo of expanding consciousness.

Experience deeper exploration and connection with Inner Self. Improve manifestation abilities by expanding the flow of transformative heart energy. Become familiar with the afterlife state(s) to deepen the connection with loved ones who have transitioned.

How it works

1. Peak Week Virtual Retreat is a 5½ day real-time interactive online retreat.
2. The daily schedule is based on each virtual retreat's specific time zone.
 1. Day 1 begins at 3 pm with an overview, introductions, logistics and an audio exercise. The day ends at 6 pm.
 2. Days 2-6 begin at 9:00 am. Each day is different and includes 3-4 audio meditation exercises, activities, videos, and short presentations with a break for lunch. Each day ends at 6:15 pm.
3. The program will be conducted using Zoom meeting, a popular online platform for video conferencing and interactive online instruction. Audio exercises will be streamed through the Zoom platform and also available for streaming through your Monroe account during the retreat.
4. Reliable internet connection with a recommended minimum internet speed of 5 Mbps for streaming the exercises.
5. You will need headphones and a computer with a camera and microphone for video communications. Over-ear wired stereo headphones or high-quality earbuds are recommended with a cord long enough to reach the place where you will be listening to the exercises.

To ensure you have true stereo sound, you can use this [Audio Test](#). (Linked in the details section below.) You should hear a pulsating frequency from ear to ear.
